Milan, May 9th, 2016

The Board of Directors of FinecoBank S.p.A. has approved the results at March 31, 2016.

Alessandro Foti, CEO and General Manager of FinecoBank, stated:

“Once again the diversification of Fineco’s business model has proved to be a winning factor, leading to register one of the best quarters ever despite a highly complex and volatile market phase, partly thanks to good performance of brokerage activity. Net sales figures are solid in April as well, confirming the attractiveness of a sustainable and robust model, focused on organic growth and long-term customer loyalty. Indeed, the acquisition of new customers continues, attracted by the quality of our customer experience, without taking advantage of short-term commercial campaigns.”

¹ Compared with 4Q 2015 net profit adjusted for non-recurring items (€ 2.3 million gross, contribution to the Solidarity Fund and € 1.2 million gross, integration costs for the UniCredit Group Strategic Plan).

INCOME STATEMENT RESULTS FOR FIRST QUARTER 2016

Operating income stood at €140.1 million, up compared to €136.8 million in the fourth quarter of 2015 (+2.4% q/q) and compared to €136.7 million in the first quarter of 2015 (+2.5% y/y).

Net interest income amounted to €62.2 million, up 10.2% compared to the same period in the previous year, substantially unchanged on the previous quarter (+0.2%). Despite the background scenario of continuously falling interest rates, this result was possible thanks to the increased volumes and lower cost of term deposits, which more than offset the reduction in interest income linked to the fall in market rates. The average net margins related to the investment of total deposits (both sight and term) was 1.38% in the first quarter of 2016, compared to 1.42% in the first quarter of 2015 and 1.41% in the fourth quarter of 2015.

Net fee and commission income was €58.2 million (-8.5% q/q and -7.4% y/y), down mainly because of lower securities trading and order collection commissions, as a result of the progressive shift by customers towards over-the-counter products and the higher incidence of internalisation activity. It is worth noting that March 2015 was the best month in the last five years for the Brokerage business, as a result of the severe volatility seen during the period. There was also a €2.5 million reduction in commissions for collection and payment services, mainly due to €1.8 million transactions with credit and debit cards. In this regard, it is important to note that Regulation (EU) 2015/751 of the European Parliament and of the Council set a cap on interbank commissions for transactions via debit and credit cards, effective from December 9th, 2015. Management fees were at €40 million in the first quarter 2016 up 3.8% y/y, mainly thanks to the relentless increase in Guided products penetration rate on Total AuM (+7p.p. y/y), and -4.7% q/q mainly affected by negative market performance recorded in the first part of the year.

Net trading, hedging and fair value income came to €19.6 million (+56.1% q/q and +15.2% y/y) and was driven mainly by higher gains from the negotiation of securities and CFDs and hedging derivatives (+24.4% q/q, +12.1% y/y) and €5 million gains from the sale of some government bonds posted in the portfolio "Available-for-sale financial assets". In fact during the quarter, with the aim to mitigate the interest rate risk, €704 million (nominal value) of government bonds at variable rates were sold, (average residual maturity less than 3 years), and a corresponding amount of fixed-rate government bonds were purchased (€706 million nominal value with a maturity between three and six years).

Operating costs were €60.2 million, slightly up compared to €58.9 million in the fourth quarter of 2015 (+2.2% q/q) and almost in line compared to €59.8 million in the first quarter of 2015 (+0.7% y/y). In the first quarter of 2016, the cost/income ratio was 43%, stable compared to the fourth quarter of 2015 but down on the 44% recorded in the first three months of last year, reflecting the Bank's effective operating leverage.

Payroll costs amounted to €18.7 million, substantially unchanged compared to the fourth quarter of 2015 (-0.9% q/q) and slightly up compared to the first quarter of 2015 (+1.8% y/y), attributable mainly to the increase in the number of staff from 1,037 at March 31, 2015 to 1,065 at March 31, 2016.

Other administrative expenses net of **Recovery of expenses**, came to €39.3 million (+4.8% q/q, -0.2% y/y). The increase compared to the fourth quarter of 2015 is mainly attributable to contributions paid for the activities of personal financial advisors. Contributions to the ENSARCO association have a fixed annual limit that is mainly filled in the early months of the year, while contributions to the FIRR termination compensation fund call for decreasing rates as specific thresholds are reached.

Operating profit was €79.9 million, up compared to €77.9 million in the fourth quarter of 2015 (+2.6% q/q) and €76.9 million in the first quarter of 2015 (+4% y/y).

Net write-downs of loans and provisions for guarantees and commitments stood at €1.4 million (-44.1% q/q, -9.0% y/y). The cost of risk was 66 bp² (85 bp in the first quarter of 2015 and 83 bp in 2015).

Provisions for risks and charges were €1.4 million, down compared to €10.5 million in the fourth quarter of 2015 and to €3.1 million in the first quarter of 2015 (-86.3% q/q, -53.8% y/y). The reduction is mainly attributable to lower net provisions for legal disputes and claims. It is also important to note that the fourth quarter of 2015 included the €4,7 million contribution to the Deposit Guarantee Scheme and the contribution to the Solidarity Fund, estimated by the Bank at approximately €2.3 million.

Profit (loss) before tax from continuing operations was €77.1 million, up compared to €63.6 million in Q4 2015 (+21.2% q/q) and €72.2 million in the first quarter of 2015 (+6.7% y/y).

Net profit for the period was €51.2 million, showing an increase of 21.3% compared to €42.2 million in Q4 2015 and 7.2% compared to €47.8 million in the first quarter of 2015. The comparison with the fourth quarter of 2015 adjusted for non-recurring items (contribution to the Solidarity Fund and integration costs for the UniCredit Group Business Plan) shows an increase of 14.9%.

SHAREHOLDERS' EQUITY AND CAPITAL RATIOS

Shareholders' equity stood at €692 million, up €59 million compared to December 31, 2015, attributable to the increase in the valuation reserve which came to €16.9 million, the reserve related to equity-settled plans which amounted to €24.9 million, and profit for the first quarter of 2016.

The Bank confirmed its capital strength with a transitional CET1 ratio of 21.31% (21.39% at the end of 2015). The total transitional capital ratio was 21.42% (21.55% in late 2015).

The leverage ratio was 10.14% (10.52% in late 2015) and was calculated in accordance with EU Delegated Regulation 2015/62 of October 10, 2014.

TOTAL FINANCIAL ASSETS AND NET SALES

Total Financial Assets at March 31, 2016 totalled €55 billion, with a slight decrease of 0.6% compared to late 2015 due to the effect of the negative market on managed and administered assets (-€1.8 billion, of which -€0.7 billion under management and -€1.1 billion under administration), partially offset by the net sales in the first quarter of 2016 of €1.4 billion (-19.3% q/q, -11.1% y/y). Net sales through the PFA network stood at €1.2 billion (-20.8% q/q, -15.9% y/y).

In confirmation of the continued improvement in the quality of sales, we note the growth of "guided products & services" which continue to increase as a percentage of TFA, rising from 21.4% as at December 31, 2015 to 22% as at March 31, 2016. There was also noteworthy growth in Assets under Management, from 45% at December 31, 2015 to 47.3% at March 31, 2016.

² The cost of risk has been calculated as the ratio between net writedowns of loans and provisions for guarantees and commitments to loans with customers (average between the period-end balance and the balance as at the previous period). Relevant indicators from previous periods have been restated for comparative purposes.,

Interim Financial Report
as at March 31, 2016 – Press Release

Direct deposits increased to €16.5 billion, up +5.7% compared to €15.6 billion at December 31, 2015, thanks to the steady growth in new customers and in “transactional deposits”.

There was a slight decrease in Assets under Management, which came to €25.6 billion (-2.7% compared to late 2015) and in Assets under Administration, which stood at €12.9 billion (-3.9% compared to late 2015).

The number of Personal Financial Advisors rose to 2,634 at March 31, 2016 (2,622 at the end of 2015).

More than 33 thousand new customers were acquired in the first quarter of 2016 (+13% q/q, +6% y/y). As of March 31, 2016, Fineco had 1,073,000 customers.

SIGNIFICANT EVENTS IN Q1 2016 AND SUBSEQUENT EVENTS

This Interim Financial Report as at March 31, 2016 – Press Release, which is presented in reclassified form, has been prepared on the basis of IAS/IFRSs in force, as detailed in Notes to the Consolidated Accounts – Part A – Accounting Policies of the Financial Statements at December 31, 2015, with the exception of the elements highlighted below.

For the purposes of the Interim Financial Report as at March 31, 2016 – Press Release, the following valuation processes have not been updated:

- a. re-measurement of recoverable amount of tangible and intangible assets, including goodwill and assets evaluated on the base of the same estimates;
- b. update of the actuarial valuations of the defined benefit plans for employees and personal financial advisors. The effects of the re-measurement of such benefit plans were recognized as of December 31, 2015.

Where necessary, such evaluations will be updated in the First Half Financial Report as at June 30, 2016.

In those cases in which the accounts did not fully reflect the reporting of items on an accrual-basis, such as certain administrative expenses, the accounting figures were supplemented by estimates based on the budget.

This Interim Financial Report as at March 31, 2016 – Press Release is not audited by the External Auditors.

CERTIFICATIONS AND OTHER COMMUNICATIONS

Related Party Transactions

With reference to paragraph 8 of Art. 5 - “Public information on transactions with related parties” of the Consob Regulation containing provisions relating to transactions with related parties (adopted by Consob with Resolution No. 17221 of March 12, 2010, as subsequently amended by Resolution No. 17389 of June 23, 2010), it should be noted that during Q1 2016 – with the approval of the Board of Directors meeting of February 8, 2016, upon the favourable opinion of the Audit and Related Parties Committee – an ordinary Significant Transaction at market conditions was conducted with UniCredit S.p.A. and UniCredit Bank AG, consisting of the renewal of the “*Framework Resolution related to the entering into of hedging derivative contracts with the Parent Company or companies in the UniCredit Group*” (which expired on 20 April 2016) to be valid until February 8, 2017, which enables the Bank to enter into hedging derivatives with the Parent Company or with other companies in the UniCredit Group for commercial assets or liabilities that, for ALM purposes, require interest rate hedging for a maximum amount of €500 million with the Parent Company and €2,500 million with UniCredit Bank AG; it was approved by the Parent Company's Related Parties and Equity Investments Committee with the issue of a favourable, non-binding opinion on the matter.

In relation to the above transaction, the Bank provided simplified disclosure to CONSOB pursuant to Art. 13, paragraph 3, letter c) of CONSOB Regulation 17221/2010.

In Q1 2016, no transactions that could significantly affect the Bank's asset situation and results way were initiated.

Intercompany transactions and transactions with related parties in general, both Italian and foreign, were conducted within the ordinary course of business and related financial activities of the Bank, and were carried out under conditions similar to those applied to transactions with unrelated third parties.
