- CET1 ratio at **22.68%** (transitional)
  
- Total financial assets: **€55,564 million (+3.3% y/y)**
- Net sales of guided products: **€1,675 million, representing 51% of total AUM (+9 pp y/y).**
- **Over 1,089,000 total customers, +8% y/y (around 59,700 new customers in 2016)**
- Strengthening of the Credit offer, with a focus on mortgages and personal loans

**Milan, August 1, 2016**

The Board of Directors of FinecoBank S.p.A. has approved the results at June 30, 2016.

---

<sup>1</sup> Non-recurring items: sale of share in Visa Europe Limited for a net profit after tax of €10.3 million; increase in current tax following the settlement of several tax disputes, of €6.5 million.

*Alessandro Foti, CEO and General Manager of FinecoBank, stated: “In a market environment that was still volatile and complex, the results for the first half 2016 confirm the Bank’s very strong performance, with record figures in various key indicators and maintenance of the robust growth already registered in the first quarter of the year. In particular, these results reflect the Bank’s solidity and the strength of its business model. In terms of customer needs, Fineco’s strategy and approach are fully capturing the structural trends in Italian society, the growing request for advisory services and the digitisation of financial services.”*

### **TOTAL FINANCIAL ASSETS AND NET SALES**

Total financial assets stood at €55.6 billion at June 30, 2016, an increase of 0.4% compared to the end of 2015, thanks to net sales of €2,650 million in 2016 (-6.4% on the first half 2015), with the net sales through the financial advisors network at €2,270 million (-12.1% compared to the first half of 2015).

The steady growth and continued improvement in the quality of sales was reflected in the growth of guided products & services, which continued to increase as a percentage of the Assets under Management, up from 42% as at June 30, 2015 to 51.3% as at June 30, 2016.

Assets under Management totalled €25.9 billion, down 1.4% on December 31, 2015.

Direct deposits increased by 8.5% compared to the end of the previous year, up to €17 billion thanks to the continued growth in the customer base and “transactional deposits”. These figures reflect the high and increasing degree of customer loyalty and high level of appreciation of the quality of the services.

Assets under custody totalled €12.7 billion, down 5.4% compared to the end of 2015.

In the first six months of 2016, around 59,700 thousand new customers were acquired, essentially in line with the approximately 59,970 customers acquired in the first half of 2015 (-1%). As of June 30th, 2016, Fineco had over 1,089,000 customers, an increase of 8% on June 2015.

The number of Personal Financial Advisors of the Fineco network at June 30, 2016 rose to 2,593, compared to 2,642 as at June 30, 2015.

## MAIN INCOME STATEMENT RESULTS AT JUNE 30, 2016

**Operating income** rose to €289 million, an improvement of 7.9% thanks to the increase in net interest income and net trading, hedging and fair value income, which more than offset the fall in net fee and commission income. The figure net of non-recurring items was €273.6 million (+2.2% y/y).

The **net interest margin** came to €123.4 million, up 6.7% on the first half 2015, due to the increase in volumes and the decreasing cost of funding, which more than offset the reduction in interest income linked to the fall in market rates.

**Net fee and commission income** amounted to €117.8 million, down 7.2% compared to the same period of 2015, mainly due to:

- lower securities trading and order collection commissions, as a result of the decrease in executed orders generating fees following the progressive shift by customers towards over-the-counter products and the higher proportion of internalisation activity. It should be noted that the first quarter 2015 was characterised by very high volatility, which favoured brokerage activity, resulting in March 2015 recording the best result for the last five years in the brokerage business. You are reminded that on June 24, 2016, following the high level of volatility due to the result of the Brexit referendum, Fineco posted a record number of 216,560 orders in a single day;
- lower commissions for collection and payment services, mainly relating to credit and debit card transactions, as a result of the entry into force, on December 9, 2015, of Regulation (EU) 2015/751 of the European Parliament and of the Council, which set a cap on interbank commissions for transactions via debit and credit cards;
- lower commissions from the placement and management of securities and units in investment funds due to the adverse performance of the markets.

In contrast, commissions on investment advisory services increased by 19.6% over the same period of 2015, thanks to the continued growth in guided products & services, while commissions from the distribution of insurance products rose by 24.8%.

**Net trading, hedging and fair value income** came to €46.9 million (+67.2% y/y), driven by the revenues realised from the internalisation of securities and CFDs. Revenues were also recognised from the sale of securities in the “Available-for-sale financial assets” portfolio totalling €5 million, realised as part of the measures to mitigate the exposure

to interest rate risk and optimise profitability, in addition to a gain of €15.3 million realised from the sale of the share in Visa Europe Limited. Net trading, hedging and fair value income came to €31.6 million, up 12.5% on the first half 2015.

**Operating costs** came to €117.7 million, down 1.5% on €119.5 million as at June 30, 2015, mainly due to lower costs arising from the incentive plans and the ongoing improvement in the efficiency of the operating structure as the Bank continues to expand in all the sectors of activity. In the half year, the cost/income ratio came to 40.74%, with a cost/income ratio adjusted for non-recurring items of 43%.

**Operating profit came** to €171.2 million, up 15.5% on €148.2 million as at June 30, 2015. Operating profit adjusted for non-recurring items came to €155.9 million, up 5.2% on the first half 2015.

**Profit before tax** amounted to €165.9 million, representing an increase of 17.2% compared to the same period of the previous year. The figure adjusted for non-recurring items was €150.5 million, up 6.3% compared to the first half 2015.

**Net profit** came to €117.8 million, up 25.7% on the first half of the previous year. Net profit adjusted for non-recurring items came to €101 million (+7.8% y/y).

During the half year, Fineco maintained its solid capital position with a CET1 ratio (transitional) at 22.68%.

In the same period, shareholders' equity amounted to €603 million.

## **SIGNIFICANT EVENTS DURING THE PERIOD**

In order to catch the main trends that are reshaping Italian society, Fineco is continuing to focus on the digitalization of its offer and on advanced financial advisory services. This includes the cyborg advisory model, aimed at improving the productivity of the Financial Advisory Network and increasing the quality of the service provided to customers. To this end, Fineco has developed X-Net, an innovative platform dedicated to its Personal Financial Advisors, which will allow them to rationalise their work, to better understand their customers' financial needs and to develop customized proposals.

In order to strengthen its Credit area, Fineco will start to offer mortgages on first and second home and will continue to focus on the development of personal loans.

As of January 1, 2016, net fees and commissions include the income component connected to the service provided (received) for the provision of securities relative to securities lending transactions collateralised by cash, previously recorded in interest expense (income). In the first quarter of 2016 net fee and commission income was equal to €58,2 million, and equal to €59,7 million in the second quarter of 2016. As a consequence, the corresponding figures for the previous year have been restated to enable like-for-like comparison, by an amount of €4.4 million (of which €1.1 million in 1Q15, €1.2 million in 2Q15, €1 million in 3Q15 and €1.1 million in 4Q15).
