Milan, July 30th, 2026

The Board of Directors of FinecoBank S.p.A. has approved the results as of June 30th, 2026.
Alessandro Foti, CEO and General Manager of FinecoBank, stated:

"Fineco's outstanding results in the first half of the year are part of a steadily accelerating growth path, highlighting the success of our business model at a time when clients' needs are rapidly evolving. The growing demand from savers for efficient and transparent solutions finds an ideal response in the combination of a technology platform enhanced by AI integration and an advisory network committed to proposing a long-term investment approach.
During the first half of 2026, client interest in assets under administration solutions strengthened further, supporting the continued growth of brokerage revenues.
Fineco is therefore in the sweet spot to capture additional growth opportunities in the years ahead, supported by the Bank's ability to attract a broad base of high-quality new clients."

The amount of non-performing loans (loans with insolvent borrowers, unlikely to pay and non-performing loans/past due) net of impairment totaled €5.7 million (€5.1 million as of March 31st, 2026 and €7.7 million as of June 30th, 2025), with a 81.1% coverage ratio. The ratio between the amount of non-performing loans and total loans to ordinary customers equaled to 0.10%.

SIGNIFICANT EVENTS IN THE SECOND QUARTER OF 2026 AND SUBSEQUENT EVENTS

With reference to the main events that took place in the second quarter of 2026 and after June 30th, 2026, please refer to the press releases published on the FinecoBank website.

MAIN INITIATIVES

Fineco is continuing to integrate Artificial Intelligence tools into its platform dedicated to financial advisors, with the aim of improving efficiency in their day-to-day work. Among the most recent developments are:

- **Customer Relationship Management (CRM) for PFA:** fully integrated into the Fineco platform, it enables financial advisors to better manage their client base. The CRM allows advisors to interact with the system in a conversational manner, identifying the clients on whom to take action. For example, it is possible to quickly identify specific investment products within portfolios or positions characterized by a high level of uninvested liquidity. In this way, the capability of the Fineco Network to deliver personalized, timely, and proactive advisory services is strengthened, enhancing the quality of client interactions and the identification of financial needs.

- **Portfolio Builder**: allows advisors to access a tool trained on the financial frameworks defined by Fineco to build portfolios tailored to individual client needs, or to analyze the characteristics of existing portfolios. The latest release is the new tool for optimizing existing portfolios: advisors can request a rebalancing based on specific constraints, such as costs or the number of instruments to be sold or purchased. The application generates a proposal aligned with the client's risk profile, based on the MiFID questionnaire, ready to be approved by the client, including through web collaboration.

The platform's evolution continues with the launch of the **Brokerage Copilot**, already available for clients with brokerage-only account. This is a new AI-driven user experience that includes stock screening features based on both fundamental and technical analysis, portfolio scenario analysis, and market news tailored to clients' interests.
Fineco has also integrated the **Accumulation Plans on ETFs via App**: now fully integrated also into the Fineco mobile platform, this new launch allows retail clients to easily set up and manage systematic investment plans directly on ETFs.

Also, **Fineco and CNP Assicura** signed a four year exclusive partnership agreement for the distribution of life insurance products, aimed at strengthening insurance advisory solutions available to financial advisors of Fineco network. This agreement further consolidates a long-term relationship, providing the Bank with a highly valuable position in wealth advisory for the management and protection of its clients' assets.

Finally, **Fineco AM** has listed on the Italian Stock Exchange **three ETFs developed in collaboration with Amundi**, Europe's leading ETF provider. The three products track highly liquid, broad and diversified stock indices: MSCI World, S&P 500 and STOXX Europe 600. The launch of the three Fineco AM - Amundi ETFs happens in a context of strong growth in demand for index-linked investment solutions among retail investors and further strengthens the successful partnership between the two asset managers.

SUSTAINABILITY

Fineco remains committed to its Sustainability journey, also through the implementation of activities and projects aimed at achieving the objectives set out in the 2024-2026 ESG Multiannual Plan and in the 2026-2029 ESG Multiannual Plan approved in March 2026.

The Bank's ESG offering and portfolio are composed as follows (data as of June 2026):

- 81% of the funds (by number of ISINs) available on the platform are classified as Article 8 and Article 9 under the SFDR
- the stock of green mortgages, granted for the purchase of residential properties, exceeds €0.2 billion
- the green, social and sustainability bonds held in the Bank's portfolio stand at around €3.0 billion
- the value of the ESG collateral switch exceeds €0.6 billion.

With regard to commitments in the areas of responsible finance and the environment as part of the Net-Zero by 2050 strategy, at the end of June 2026 96.6% of the banking treasury portfolio was invested in debt securities issued by sovereign and banking issuers with a Net-Zero target by 2050 (Fineco's interim target of 95% by 2030 and 100% by 2050).

Fineco has received the following scores from leading ESG rating agencies:

- S&P Global ESG Score: 68/100
- CDP Climate Change: rating "B"
- Sustainalytics: ESG risk rating of 11.4 (Low Risk), confirming Fineco's positioning among the best-performing banks at an international level
- MSCI ESG Rating: "AA" (leader) within the Diversified Financials sector
- Standard Ethics: rating "EEE–" with a stable outlook.

Fineco is included in the following sustainability indices: Borsa Italiana MIB ESG Index (Euronext), FTSE4Good, S&P Global 1200 ESG Index, S&P Global Large Mid Cap ESG Index, Standard Ethics Italian Banks Index, and Standard Ethics Italian Sustainability Index.

GUIDANCE FOR 2026: FURTHER UPGRADED OUTLOOK

Further upgraded outlook for 2026 and 2029 Plan, driven by combination of: 1) **better than expected net sales**, with all the mix component contributing positively to revenues; 2) **combination of deposit net sales and rates evolution**; 3) **slower growth of operating costs vs CMD** expectations

For 2026 Fineco expects all business areas to **positively contribute to the revenue growth** thanks to the **acceleration of structural trends**:

- **Net Financial Income**: growing thanks to the combination of positive deposit net sales and higher interest rates

- **Investing**: solid increase in revenues thanks to the combination of resilient net sales and mix improvement

- **Brokerage** revenues: expected to remain strong with a continuously growing floor thanks to the higher AuC and the enlargement of our active investors. We expect another record year

- **Banking Fees**: expected stable

- **Operating Costs**: expected growth of around 6% y/y, not including around €15 million of additional costs for growth initiatives (mainly: AI, marketing, FAM; compared to the previous guidance, the increase of around €5 million is related to marketing) and around €5 million for the pan-EU platform set-up costs

- **Cost/income**: comfortably below 30% thanks to the scalability of our platform and strong operating gearing

- **Cost of risk:** in a range 5–10 bps

- **Payout & Capital ratios:** we expect a payout ratio in a range 70/80%. On Leverage Ratio our goal is to remain above 4.5%.
